

Number one expertise on the seven seas

Auramarine has been the world's leading manufacturer of fuel oil supply systems for over 30 years. We have wide-ranging experience in liquid flows and this craftsmanship is also utilized in design and manufacture of cooling water and lubrication oil units and BWT systems. With over 10,000 skid mounted auxiliary units, Auramarine has superior experience in fuel systems. Our solutions include planning, required technical equipment and alteration work.

The secret behind Auramarine's success.

We are good listeners.

There are simple reasons behind Auramarine's success. The most important of these is the ability to listen to customer needs and the expertise to build first-rate and reliable systems to meet these needs.

Fast deliveries, good service and a reliable and fast spare part service have ensured the uninterrupted business for our customers.

Good planning and modular solutions also work to the customer's benefit. What we deliver also works. Auramarine products are guaranteed to work at the most demanding conditions in the world.

Auramarine HFO (Heavy Fuel Oil supply units)

Our HFO unit series with easy accessibility and service meets the increasing demand to minimize the required space for any other purposes than passenger or cargo.

Auramarine MGO (Marine Gas Oil handling unit)

Auramarine is a specialist in ship fuel systems, and due to our experience, we can also offer fast and reliable solutions when the switch to low sulphur fuel is needed. In addition, the unit works seamlessly with the AMB and all other HFO units.

Auramarine CrystalBallast® (Ballast Water Treatment system)

Auramarine's CrystalBallast is a combination of automatic filtration and ultraviolet light. The solution offers considerable benefits compared to other disinfection methods. The unique AFC (Automatic Flow Control) finds the optimal solution with maximum effectiveness and minimum time and energy consumption.

CrystalBallast is fast, reliable and safe. It is a stable and economical solution for ship owners and shipyards to meet new environmental standards.

After Sales

Auramarine's primary task is to ensure the continuous and faultless operation of your ships. This is why our After Sales service is available 24/7. Moreover, we have a global dealer and agent network. Under normal conditions the required help or spare part is dispatched to the ship within 24 hours and delivered in 2 to 3 days.
